4.5	MARIE VAN DEN BROECK.....	109
4.6	VIVIEN DJIAMBOU	110

1. INTRODUCTION

En 2016, l'école doctorale thématique « Doctoral School of Management » (DSM) a proposé les cours doctoraux de base suivants :

- Epistemology of Management
- Quantitative Research Methods
- Qualitative Research Methods

Ces cours ont été complétés par différentes activités doctorales en lien avec la gestion (cours, séminaire, ateliers, conférences) données dans les domaines des trois instituts attachés à la DSM et leurs centres et pôles de recherche respectifs, à savoir :

- **ILSM** (=LouRIM depuis janvier 2017) - Louvain Research Institute in Management and Organizations
 - o CRECIS - Stratégie et Entrepreneuriat : Centre for Research in Entrepreneurial Change and Innovative Strategies
 - o CERMA - Center on Consumer Relations and Responsible Marketing
 - o CEMIS - Center in Management Information Systems
- **IACCHOS** - Institut d'analyse du changement dans l'histoire et les sociétés contemporaines
 - o CIRTES - Centre interdisciplinaire de recherche Travail, Etat et Société
 - o CriDIS - Centre de recherches interdisciplinaires Démocratie, Institutions, Subjectivité
- **IMMAQ** - Institut de recherche multidisciplinaire pour la modélisation et l'analyse quantitative
 - o CORE - Center for Operations Research and Econometrics
 - o LFIN - Louvain Finance

Les activités reprises dans ce rapport ont été sélectionnées en raison de la présence des doctorants de la Doctoral School of Management.

6 thèses de doctorat ont été défendues avec succès en 2016. La liste se trouve en annexe du rapport.

En 2016, les membres de la **Commission doctorale** se sont réunis les 15 mars, 9 mai, 26 septembre et 28 novembre 2016. Points abordés :

- changements dans le règlement doctoral UCL et les dispositions particulières en économie et gestion,
- exigence de présence des doctorants,
- preuves éligibles de financement des thèses,
- révision de Vademeicum pour les doctorants DSM, note sur le rôle du comité d'encadrement, note sur les formats de thèse admissibles,
- organisation d'une enquête de satisfaction dans l'école doctorale,
- classement des revues scientifiques (analyse et note),
- jurisprudence de la CDD pour la désignation de secrétaire du jury,
- gestion administrative du doctorat.

2. PRÉSENTATION DE L'ÉCOLE DOCTORALE THÉMATIQUE

- Année civile : 2016
- Intitulé de l'École doctorale thématique : Doctoral School of Management (DSM)
- Président : Pr Per AGRELL (Président DSM, UCL)
per.agrell@uclouvain.be
- Comité scientifique au 31 décembre 2016 : Pr Per AGRELL (Président DSM, UCL)
Pr Frank JANSSEN (Porte-parole DSM, Président LouRIM, UCL)
Pr Philippe CHEVALIER (Président IMMAQ, UCL)
Pr Matthieu de NANTEUIL (Président IACCHOS, UCL)
P^r Annick CASTIAUX (Responsable doctorat gestion, UNamur)
P^r Erik DEMEULEMEESTER (Responsable doctorat gestion, KULeuven)
- École doctorale près le F.R.S.-FNRS : Ecole doctorale de Sciences économiques et de Gestion (Graduate College de rattachement)
- Réunions du comité scientifique : La Commission Doctorale en Economie et Gestion (CDD) s'est réunie les 15 mars, 9 mai, 26 septembre et 28 novembre 2016.
- Site Internet de l'École : <http://www.uclouvain.be/en-349454.html>
- Budget octroyé par le Graduate College Ecole doctorale de Sciences économiques et de Gestion près le F.R.S. - FNRS : 2.700 € conformément à la lettre du FNRS portant sur l'année 2016
- Utilisation du budget octroyé : Le budget octroyé a servi à financer :
 - Le cours CEMS de Jens CHRISTIENSEN à hauteur de 1800 € (voir point 3.3.2)
 - Le cours de Murillo CAMPELLO à hauteur de 1000 € (voir point 3.3.4)
- Autres sources de financement notamment éventuelles :
 - L'enveloppe FSR Ecoles doctorales de l'UCL a financé les activités reprises aux points 3.2.8, 3.3.1, 3.3.2, 3.3.4.
 - Les instituts de recherche ont aussi participé au financement d'activités sur leur budget de fonctionnement.
 - Les séminaires LFIN ont bénéficié du soutien de la Banque nationale de Belgique.

**3. ACTIVITES DE FORMATION ORGANISEES PAR LA « GRADUATE SCHOOL »
DOCTORAL SCHOOL OF MANAGEMENT**

3.1 COURS DE BASE OBLIGATOIRES

3.1.1 Epistemology of Management

DSM – ACTIVITE DOCTORALE 2016		
Code :	LLSMA2001	
Année civile :	2016	
Ecole doctorale :	Doctoral School of Management	
Intitulé de l’activité :	Epistemology of Management	
Organisateur :	Pr Matthieu de NANTEUIL, UCL, LSM	
Nature de la formation :	Cours doctoral en tronc commun avec la UCL / LSM

WUILLAUME ZOUNTCHEME	Amélie Donald	UCL UCL
Descriptif ou Programme :		
PRESENTATION		
<p>A course in Epistemology of research on management should allow the students to access to a critical theory of knowledge applied to management and, in a wider sense, to all disciplines that belong to management studies.</p> <p>Such a goal is at the same time theoretical and practical: firstly, it should help the students in understanding how a "management science" has been progressively invented, what are the challenges and limitations of such a project; secondly, it will introduce the participants to the main debates in the epistemological field, mixing fundamental and applied epistemologies; thirdly, it will give them reflexive roots to fulfill their PhD. thesis in management studies.</p> <p>After an introductory session dedicated to the foundations of epistemology, the course will explore the main branches in fundamental epistemology:</p> <ol style="list-style-type: none"> 1. Positivism and Neo-positivism; 2. Systems and Structures; 3. Interpretativism and Social Critics; 4. Contemporary Epistemologies (not done this year). <p>Then, it will be dedicated to the presentations of current works in epistemology applied to management. Getting inspiration from the Critical Management Studies (CMS) movement, it will finally conclude on the notion of "critics" applied to management.</p>		
PROGRAMME & CALENDAR		
<p>During the year 2015-2016, the calendar is the following:</p> <p>Thursday, Feb.18th 2016 – 15.00 to 18.00 – Fundamental Epistemology (MORE 74) Introduction</p> <p>Monday, Feb. 29th 2016 – 10.00 to 13.00 – Fundamental Epistemology (U. VAES - A052) Session 1 – Empiricism, idealism: foundations of modern epistemology</p> <p>Monday, March 14th 2016 – 9.00 to 12.00 – Fundamental Epistemology (U. VAES - A052) Session 2 - Around Popper: Positivism & Neo-positivism - Group presentations</p> <p>Session 3 - Systems (Luhmann) and Structures (Bourdieu) - Group presentations</p> <p>Thursday, April 14th 2016 – 14.30 to 17.30 – Applied Epistemology (MORE 74) Session 5 - Interpretativism and Social Critics (Foucault, Berger & Luckmann, Garfinkel, Ricoeur, Habermas) - Group presentations</p> <p>Session 6 - Contemporary Epistemologies (Simon, Giddens, Sen, Latour, Thévenot) - Group presentations</p> <p>Thursday, April 21st 2016 – 13.00 to 16.00 – Applied Epistemology (MORE 74) Texts to be defined by students</p> <p>One or two other sessions will be organised. To be discussed.</p>		

STUDENTS' WORKS

All following works will be achieved by groups (number to be defined). The precise requirements are as follows:

1. Oral presentation in Fundamental Epistemology. It will include:

A detailed presentation of the text;

An analysis of its contribution to the epistemological branch it belongs to;

An analysis of its possible contribution to the epistemology of management.

2. Oral presentation in Applied Epistemology. It will include:

A detailed presentation of the text;

An analysis of its contribution to a specific field in management;

A critical evaluation of the text, with respect to what have been presented and discussed during the course.

3. Final written document. It will include:

A summary of one text in Fundamental Epistemology and of one text in Applied Epistemology (possibly – but not necessarily – those presented orally);

A critical evaluation of the texts, as well as of their contributions;

Each member of the group then presents its research project and the possible contributions of such texts to his/her epistemological reflection. Such reflexion should also include elements coming from the compulsory books. It will conclude on the notion of "critics" and its impacts on his/her reflection.

LANGUAGE

The course is held in English & French. All written documents (powerpoints as final reports) are in English. Oral presentations are usually held in French, but additional oral sessions in English can be organised if necessary.

REFERENCE BOOKS

In addition to the syllabus (Parts I & II, both compulsories), compulsory books are:

Understanding Management Research, by Phil Johnson and Joanne Duberley (London: Sage, 2000);

Pespectives critiques en management. Pour une gestion citoyenne, by Laurent Taskin & Matthieu de Nanteuil (eds) (Bruxelles: De Boeck, 2001)

3.1.2 Quantitative Research Methods

DSM – ACTIVITE DOCTORALE 2016		
Code :	LA2002

SALAWU	Kazeem	UNamur
WIJNANDTS	Jean-Charles	UCL
Descriptif ou Programme :		
OBJECTIVES		
The main objective of the course is to strengthen the logic reasoning skills for Ph.D. students, in order to help them develop rigorous arguments in order to write articles for scientific journals. The secondary objective is also to help them develop algorithms in order to solve problems that would come up in their thesis.		
The main chapters of the course will be:		

- Logic, automata and context free languages. Automata are very simple objects that can be used to start developing simple but very rigorous proofs.
- Turing machines. Turing machines build on automata to make it possible to build more elaborate proofs.
- Computability and Complexity theory. Based on the logic framework of the previous chapters, we will now analyze questions such as: does a problem have an answer? (surprisingly it is possible to prove that some questions cannot be answered) how can we prove that a problem is difficult to solve?
- Analysis of algorithms. In this last section we apply the concepts seen before to analyze some generic algorithms.

TEACHING METHOD

The course will be organized in flipped classroom mode, the students are expected to read the material before class, a forum will be set up in order to interact electronically during the reading. During the class sessions we will solve problems interactively.

The evaluation will be entirely based on the class participation.

TENTATIVE SCHEDULE

The schedule below can be adapted as a function of the interests of the participants to the course.

Date	Topic	Reference
Apr 15, 14 – 17	Regular Languages	ITC Chap 0+1
Apr 29, 14 – 17	Context Free Languages	ITC Chap 2
May 13, 14 – 17	Turing Machines + Decidability	ITC Chap 3
May 20, 14 – 17	Decidability	ITC Chap 4
Jun 3, 14 – 17	Reducibility	ITC Chap 5
Jun 17, 14 – 17	Complexity theory	ITC Chap 7
Jul 1, 14 – 17	Greedy Algorithms	AD Chap 4
Jul 8, 14 – 17	Dynamic Programming	AD Chap 6

Room : LECL 82

BIBLIOGRAPHY

ITC Introduction to the Theory of Computation, 3rd Ed., Michael Sipser, Cengage Learning, 2012.

AD Algorithm Design, Jon Kleinberg, Eva Tardos, Addison-Wesley, 2006.

Descriptif ou Programme :		
CONTENT		
<p>Qualitative research methods are well suited in order to study personal experiences, perceptions, understanding, reflections and reasoning, helpful for understanding the individual's rationalization process (i.e. how you make sense to events).</p> <p>The seminar will provide an overview of questions regarding theoretical background, collecting data, analysis and reporting of relevance for management sciences. So, the seminar will provide an understanding of research issues and teach skills in qualitative research methods that can be used in master and doctoral thesis work in management.</p> <p>The seminar will take you through different philosophical assumptions about research, and you will learn about what characterizes qualitative research. You will learn about the research methodologies -action research, case study, ethnographic research, and grounded theory-, and methods for gathering qualitative data. You will gain introductory experience in analysis, interpretation, and writing based on field data, and learn about ethical frameworks for conducting qualitative research. The assignments will give you practical experience in qualitative research methods in use by carrying out interviews and observations in projects relevant to domains of students' interests. The final assignment consists in writing a research proposal based on experiences developed in earlier assignments (PhD students are encouraged to draw on the seminar in order to write their methodological chapter, if appropriate).</p>		
LEARNING OUTCOMES		
<p>Knowledge of main principles of qualitative research and practical experience with data collection and methods of analysis relevant for management sciences research. More specifically, after you have completed this course, you must:</p> <ul style="list-style-type: none"> • know about different qualitative methodologies and methods that are used in management when generating empirical material; • know the differences between these methodologies and can argue for your methodological choices; • have practical experiences with interviews and observations; • have an understanding about the relationship between research questions, methodologies and paradigms; • know about the ethical framework for the conduct of research; • be able to carry through new qualitative research projects. 		
LEARNING METHODS AND ACTIVITIES		
<p>Individual lectures and group assignments during the term, by group of 4-5 students choosing to investigate one stage of the qualitative research (collecting, analysing, designing and criticizing). For each, three outcomes are expected: (i) a written report summarizing each of the recommended texts (in English or French), (ii) a discussion in an organized debate with guests to invite for sharing opinions and critiques about the texts and their contents, and (iii) the slideshows supporting the 45 minutes presentation of the texts. The written report as well as the slides are diffused to the whole group since it is one major source for learning how to conduct a qualitative research (students are expected to know them).</p>		

The first class will define a common subject to be investigated. Each student will have to conduct two interviews and to transcribe them by May, 24.

The teaching is delivered during classes and, especially, three classes in May (18, 24 & 31), from 9:00 am till 6:00 pm. Attendance is compulsory.

The final assignment consists in an individual research proposal to be sent out by July, 10 and that will be discussed during an oral exam.

PROGRAM

Wed. March, 2, 4 :15 – 6 :15 pm: Introduction session (attendance is compulsory)

Wed. May, 18, 9:00 am – 6:00 pm: Themes 1 (design) & 2 (collecting)

Tue. May, 24, 9:00 am – 6:00 pm: Theme 3 (analyzing data) + practice

Tue. May, 31, 9:00 am – 6:00 pm: Theme 4 (beyond standards) & conclusion

Topic 1 – Qualitative research design and specificities

- Denzin, N. & Lincoln, Y. (2000). The discipline and practice of qualitative research. In N. Denzin & Y. Lincoln (Eds.). Handbook of qualitative research (2e ed.) (pp.1-28). Thousand Oaks: Sage.

Descriptif ou Programme :

Depuis la première édition à Louvain-la-Neuve en 2010, ce séminaire a été organisé dans différentes villes belges ou françaises (Gand en 2012 ; Bruxelles en 2013; Nantes en 2014 ; Paris en 2015). De quoi s'agit-il concrètement ?

Le CSR Research Seminar s'étend sur deux journées dédiées à la recherche sur la Responsabilité Sociale de l'Entreprise (RSE), et cela quelle que soit la discipline d'origine du chercheur : économie, management, ressources humaines, finance, marketing, droit, sociologie, psychologie, sciences politiques, philosophie... Durant ces deux journées, doctorants, jeunes chercheurs, et chercheurs confirmés de renommée internationale y sont invités à échanger sur leurs projets de recherche respectifs ; à faire le point sur l'état d'avancement de la recherche en sciences humaines sur la RSE et à imaginer ensemble des pistes de recherche futures. Enfin, des ateliers approfondis d'aide à la publication dans des journaux internationaux de bon niveau sont également proposés aux participants.

Le CSR Research Seminar trouve en outre naturellement sa place dans les travaux du Louvain CSR Network, ce dernier visant à (1) consolider la formation des doctorants sur la RSE et le développement durable ; (2) développer des recherches et des publications transversales de haut

niveau sur le sujet ; et à (3) développer un réseau solide d'experts internationalement reconnus autour de la thématique de la RSE.

Nous désirons renforcer la capacité des doctorants et jeunes chercheurs de nos universités (UCL, UNamur, HEC-Université de Liège) à conduire, défendre et publier leurs travaux de recherche en RSE.

Le CSR Research Seminar représente une occasion pour ces jeunes chercheurs de présenter leurs travaux de recherche face à des chercheurs mondialement reconnus ayant l'expérience de publier dans des revues de haut niveau sur le sujet de la RSE (tels que Shuili Du, USA ; Jean-Pascal Gond, Royaume-Uni; Guido Berens, Pays-Bas ; Frank de Bakker, Pays-Bas...). Cela leur permet également de rencontrer des professeurs prêts à participer à leur jury de thèse. Enfin, cela nous permet aussi à tous de se faire connaître sur la scène internationale et faire naître des collaborations de recherche au niveau international.

Au fil des années le CSR Research Seminar a participé à créer un réseau de chercheurs internationaux travaillant sur la RSE. La mise en place et le maintien sur plusieurs années d'un tel réseau –grâce à l'organisation annuelle de ce séminaire depuis maintenant six ans-- contribuent à approfondir les discussions au-delà des rendez-vous annuels du séminaire et à mettre en place des projets de recherche sur le long terme.

Quels sont les objectifs poursuivis ?

Les objectifs du CSR Research Seminar sont les suivants :

- Créer un lieu de rencontre, de discussion, et de collaboration entre chercheurs – jeunes et confirmés – s'intéressant à la RSE et au développement durable dans leurs recherches ;
- Faire le point sur l'état des recherches dans le monde sur le sujet de la RSE et du développement durable du point de vue des sciences humaines ;
- Assurer de l'expertise de l'UCL, l'UNamur et HEC-Université de Liège sur la thématique transversale de la RSE et du développement durable et valoriser les recherches qui y sont menées dans ces domaines;
- Développer le réseau du Louvain CSR Network en Belgique et à l'international.

RÉUNION DE PRÉPARATION ENTRE EXPERTS :

CSR RESEARCH SEMINAR 2016:

Next Level Business Approaches for Corporate Social Responsibility

WEDNESDAY, JUNE 22

13.30 – 14.00: WELCOME

14.00 – 16.00: INNOVATIVE TEACHING APPROACHES FOR CSR

Room 431

Let's bring and explain some good examples of practices in CSR teaching: Good exercises, cases, texts, programs, excursions...

Some of us already proposed to very briefly introduce some of their innovative experiences and/or ideas to generate debate and discussion:

- Luc Van Liedekerke (Universiteit Antwerp, Belgium): "The Antwerp Management School approach"

- François Maon (IESEG School of Management, France): "New CSR programs at the IESEG School of Management"
- Emma Avetisyan (Audencia School of Management, France): "The CSR pedagogy at Audencia"
- Coline Ruwet and Christel Dumas (ICHEC Brussels Management School, Belgium): "Impact of CSR teaching on students"
- Shuili Du (University of New Hampshire, USA): "An experience in CSR teaching"
- Valérie Swaen (Université catholique de Louvain, Belgium & IESEG School of Management, France): "Massive Open Online Courses (MOOC) to teach CSR?"

16.00 – 16.30: Coffee break

16.30 – 18.00: FUTURE TRENDS IN CSR RESEARCH TOPICS

Room 431

Some of us already proposed to briefly introduce some interesting research topics to generate debate and discussion (but discussion should not be limited to those topics, feel free to propose other topics for debate):

- Shuili DU (University of New Hampshire, USA): "CSR and social media"
- Frank de Bakker (VU): "NGO-business interactions"

PARTICIPANTS

- Emma Avetisyan, Audencia School of Management, France
- Frank Boons, University of Manchester, UK
- Annick Castiaux, University of Namur, Belgium
- Frank de Bakker, VU Amsterdam, The Netherlands
- Simone De Colle, IESEG School of Management, France (to be confirmed)
- Shuili Du, University of New Hampshire, USA
- Christel Dumas, ICHEC Brussels Management School, Belgium
- Marek Hudon, Université libre de Bruxelles, Belgium (to be confirmed)
- Catherine Janssen, IESEG School of Management, France
- François Maon, IESEG School of Management, France
- Coline Ruwet, ICHEC, Belgium
- Valérie Swaen, Louvain School of Management, Université catholique de Louvain, Belgium & IESEG School of Management, France
- Luc Van Liedekerke, Universiteit Antwerp, Belgium
- SPONSORS
- Audencia School of Management, CSR Institute, France
- Fonds National de la Recherche Scientifique, Belgium
- ICHEC Brussels Management School, Belgium
- IESEG School of Management, France
- Institut de recherche de la Louvain School of Management, Université catholique de Louvain, Belgium
- LEM (Laboratoire CNRS Lille Economie et Management – UMR 9221), France

VENUE

The CSR Research Seminar will take place at ICHEC Brussels Management School, in Brussels, Belgium.

Boulevard Brand Whitlock 2,
1150 Woluwe-Saint-Pierre,
Belgium.

Rooms 231, 232 and 431
CONTACT

CSR RESEARCH SEMINAR 2016 - PROGRAM

Next Level Business Approaches for Corporate Social Responsibility

THURSDAY, JUNE 23

8.30 – 9.00: Welcome coffee
9.00 – 9.30: KICK-OFF SESSION

Room 231

Welcoming expert panel members and participants & short introduction to the seminar

By: Christel DUMAS (ICHEC Brussels Management School, François MAON (IESEG School of Management), and Valérie SWAEN (Louvain School of Management, UCL & IESEG)

9.30 – 10.45: PLENARY SESSION 1 – KEYNOTE ADDRESS

Room 231

Transitioning towards responsible business models

Keynote speaker: Prof. Frank BOONS (University of Manchester, UK)

10.45 – 11.15: Coffee break

11.15 – 12.45: THEMATIC SESSION 1

Room 232

Session 1A. Critical perspectives on CSR

Chairs: Simone DE COLLE (IESEG School of Management, France)

- Thomas FERRETTI (Institut supérieur de philosophie, UCL, Belgium)
“There is no just society without just regulations: A critical approach to corporate social responsibility”
- Rashedur CHOWDURY (University College Dublin, Ireland)
“Academic Anxiety and Understanding the Management of Victimhood: A Perspective from Rana Plaza Fieldwork.”
- Christopher BENOIT (CASS Business School, City University London, UK)
“Policing Corporate Social Responsibility”

Room 431

Session 1B: Investigating the impact of (ir)responsible business practices

Chairs: Guido BERENS (Rotterdam School of Management, The Netherlands)

- Hélène L'HUILLIER (ESSEC Business School, France)
“Social impact studies: different visions, different underlying conceptions of CSR”
- Pauline MUNTEN (Louvain School of Management, Belgium)
“Curbing product obsolescence issues: Understanding life span information framing effects on consumers' intertemporal choices”

- Corentin HERICHER (Université catholique de Louvain, Belgium)
“The impact of corporate social responsibility on voluntary employee green behavior.”

12.45 – 13.45: Lunch

13.45 – 14.45: THEMATIC SESSIONS 2A AND 2B

Room 232

Session 2A. Organizing for CSR

Chairs: Frank DE BAKKER (VU Amsterdam, The Netherlands)

- Claire-Isabelle ROQUEBERT (Audencia Business School, France)
“Internal paradoxes in a context of a socially and environmentally responsible growing SME”
- Tatu LYYTINEN (Aalto University, Finland)
“Developing business model from corporate social responsibility initiative: The case of Grundfos Lifelink in Kenya”

Room 431

Session 2B. Drivers of CSR policies and initiatives

Chairs: Kenneth DE ROECK (IESEG School of Management, France)

- Marion DUPIRE (Maastricht University, Belgium)
“What drives social performance in competitive industries, spill-over or differentiation?”
- Michiel de ROO (VU Amsterdam, The Netherlands)
“Why do firms engage in corporate social responsibility? Combining firm-level and country-level motives”

14.45 – 16.00: ACADEMIC CAREER SESSION

Room 231

Let's get published! Different viewpoints on submitting and revising your manuscripts

Presenters:

- Laure CABANTOUS for "M@n@gement" (CASS Business School, City University London, UK)
- Frank DE BAKKER for Business & Society (VU Amsterdam, The Netherlands)
- Frank BOONS for Journal of Industrial Ecology and Journal of Cleaner Production (University of Manchester, UK)

16.00 – 16.45: Coffee break

16.45 – 18.00: ROUNDTABLES WITH THE EXPERTS

Room 431

Roundtable session on academic and scientific issues based on participants' questions, grouped around three questions:

- What makes a great article great?
- What is the impact of our research on society and how can we increase it?
- How can I best develop my identity and career as a researcher?

FRIDAY, JUNE 24

8.30 – 9.00: Welcome coffee

9.00 – 10.30: THEMATIC SESSION 3

Room 231

Session 3. Redefining business & organizations

Chairs: Coline RUWET (ICHEC Brussels Management School, Belgium)

- Robert LAVIEREN (Universiteit van Amsterdam, The Netherlands)
“Redefining business objectives for the 21st century”
- Youlia VASKOVA (Université catholique de Louvain, Belgium)
“The emergence of corporate social responsibility (CSR) in a network society”
- Camille MEYER (Université Libre de Bruxelles, Belgium)
“Building commons organizations: The case of community banks and financial commons”

10.30 – 11.00: Coffee break

11.00 – 12.30: PLENARY SESSION 2 – EXPERTS PRESENTATIONS

Room 231

CSR and innovation

Presenter:

- Shuili DU (University of New Hampshire, USA)
“Value transformation and sustainable business”

Presenter:

- Luc VAN LIEDEKERKE (Universiteit Antwerp, Belgium)
Between the circular economy and closed loop supply chains:
“What does management theory tell us”

12.30 – 14.00: Lunch

14.00 – 15.30: THEMATIC SESSIONS 4A AND 4B

Room 232

Session 4A: Innovation and CSR practices, processes & discourses

Chairs: Annick CASTIAUX (UNamur, Belgium)

- Abdel BITAT (USLB)
“Environmental regulation and eco-innovation: insights from diffusion of innovations theory”
- Shalini GOPALKRISHAN (Valencia College, USA)
“The effect of aspirational pledges on innovation in CSR”
- Dr Katinka QUINTELIER (Universiteit van Amsterdam, The Netherlands)
“‘Win-win’ or ‘No pain, no gain’? The influence of stakeholder orientation on stakeholder cooperation”

Room 431 Session 4B: CSR & Finance

Chair: Mikael PETITJEAN (Université catholique de Louvain, Belgium)

- Brigitte BERNARD-RAU (Radboud Universiteit, The Netherlands)
“The Impact of socially responsible investors and social rating agencies on firm’s practices: An institutional logics perspective”
- Julia PUASHUNDER (The Schwartz Center for Economic Policy Analysis, USA)
“Socio-psychological motives of socially responsible investors”
- Georg WERNICKE (Copenhagen Business School, Denmark)
“Access to finance and investments into corporate social responsibility: Causal evidence from a quasi-natural experiment”

15.30 – 16.30: PLENARY SESSION 3: FINAL EXPERT PANEL AND CLOSING DEBATES

Room 231

Next Level Research Approaches for Corporate Social Responsibility: Methodology, theory and deontology

Chairs: Christel DUMAS (ICHEC Brussels Management School) & Céline LOUCHE
(Audencia Business School, France)

16:30 – 18:00: Closing drink

TEAM

PROGRAM CHAIRS AND ORGANIZING COMMITTEE:

- Annick Castiaux, University of Namur, Belgium
- Christel Dumas, ICHEC Brussels Management School, Belgium
- Céline Louche, Audencia Business School, France
- François Maon, IESEG School of Management, France
- Sophie Marquet-Pondeville, University of Namur, Belgium
- Valérie Swaen, Louvain School of Management, Université catholique de Louvain, Belgium & IESEG School of Management, France

Center on Consumers and Marketing Strategy (CCMS)		

A joint initiative of the Center for Research on Consumption and Leisure (CeRCLe, University of Namur) and the Center of Excellence on Consumer Relations and Responsible Marketing (CERMA, LouRIM, UCL)

CCMS doctoral day
Mons – February 26, 2016

8h45-9h15 WELCOME

9h15-9h45 Iskra HERAK (UCL, LLN)
Anthropomorphism and dehumanization in the brand-endorsement context

9h45-10h15 Pauline MUNTEM (UCL, LLN)
Curbing product obsolescence issues: understanding life span information framing effects on consumers' intertemporal choices

10h15-10h45 Fatima Zohra CHARQI (UNamur)
Research questions on collaborative consumption (topic to be defined)

10h45-11h15 BREAK

11h15-12h Fanny CAMBIER (UCL, LLN)
Communicating customer empowerment strategies to non-participants: mechanisms and conditions impacting the affective reactions and the brand relationship

12h00-12h45 Nadia STEILS (UNamur)
Antecedents and Consequences of Consumers' e-Learning Processes"

12h45-14h15 LUNCH

14h15-15h Etienne DENIS (UCL, Mons)
Charitable giving: Toward a better understanding of today's donator

15h00-15h45 Justine VIRLEE (UNamur)
Patients participation in online health communities, social support and quality-of-life: The moderating role of health literacy

15h45-16h BREAK

16h-16h45 Jérôme MALLARGE (UNamur) –
Revisiting the service evaluation process in the sharing economy

16h45-17h30 CLOSING SESSION

3.2.3 LouRIM/CEMIS - Reading workshop - Information systems

DSM – ACTIVITE DOCTORALE 2016		
Année civile :	2016	
Ecole doctorale :	Doctoral School of Management	
Intitulé de l'activité :	Reading Workshop in Information systems

Descriptif ou Programme :		
Thème des 6èmes Journées Georges Doriot (Mons, Belgique)		
<p>Soutenu à la fois par une tradition académique fonctionnaliste et des discours politiques normatifs, l'entrepreneuriat a longtemps été considéré sous le prisme exclusif de la création de richesse (Jennings et al., 2005 ; Amstrong, 2005 ; Tedmanson et al. 2012). Les discours scientifiques et politiques ont notamment attribué un rôle sans doute excessif à l'innovation et cultivé la figure du leader héroïque (Janssen et Schmitt, 2011), masquant des formes d'entreprendre plus contrastées, des raisons d'entreprendre variées et mettant aussi de côté la performativité et l'idéologie de ces mêmes discours optimistes. Au-delà de cet « entrepreneurialisme », l'entrepreneur(e) peut également – peut-être avant tout – être envisagé comme un agent du changement social et politique, transformant par ses micro-pratiques des ordres établis.</p> <p>Ce changement de perspective implique, d'une part, de déconstruire un ensemble de discours autour de l'entrepreneuriat considérés comme allant de soi, d'appréhender différemment les processus entrepreneuriaux et d'approfondir l'étude des « entreprendre autrement » d'autre part. Il en va ainsi par exemple de la création de valeur financière que les approches traditionnelles peinent à appréhender en phase de création d'entreprise et qui constitue, pour de nombreux entrepreneurs, plus une contrainte qu'un objectif (St-Pierre et Cadieux, 2011). Il en va ainsi également des formes solidaires, sociales et collectives de l'entrepreneuriat qui appellent à un renouvellement des approches là où on calque le plus souvent les instruments dominants de l'entrepreneuriat (plans d'affaires, etc.). Il en va ainsi enfin des référents culturels occidentaux qui soutiennent les manières de penser l'entrepreneuriat.</p>		

L'objectif de ces 6èmes journées est de mettre en débat des conceptions dites « critiques » de l'entrepreneuriat. Il s'agit plus spécifiquement de « défier » les hypothèses fondatrices de l'entrepreneuriat pour générer des théories « intéressantes » au lieu de miser sur la simple détection de vides dans la connaissance accumulée et considérée pour « vraie » (Alvesson et Sandberg, 2013). Les approches critiques ont également pour ambition de « réhabiliter l'épaisseur de la décision humaine, l'importance des rapports de force au sens large, la place de l'incertitude ou des dimensions symboliques à l'œuvre dans les activités productives » (Taskin et de Nanteuil, 2011). Dans cette perspective, nous vous invitons à développer des perspectives critiques, nouvelles et originales sur les thèmes suivants :

- Entrepreneuriat et changement social ;
- Finance entrepreneuriale et renouvellement de la création de valeur ;
- Entrepreneuriat, légitimité et déviance ;
- Approches narratives de l'entrepreneuriat ;
- Esthétique de l'entrepreneuriat ;
- Entrepreneuriat, résistance et émancipation ;
- Mode d'enseignement « alternatifs » de l'entreprendre ;
- Entreprendre, ontologie processuelle, processus entrepreneuriaux (entrepreneurizing) ;
- Entrepreneuriat et genre ;
- Entrepreneuriat ethnique et immigrant ;
- Approches politiques : la société entrepreneuriale ;
- Entrepreneuriat et géostratégie ;
- Déconstruction des histoires et discours dominants ;
- Entrepreneuriat familial, pérennité et résistance à la financiarisation ;
- Entrepreneuriat durable, social et solidaire / Entrepreneuriat collectif ;
- Entrepreneuriat contraint ou de nécessité ;
- Approches culturelles de l'entrepreneuriat ;
- Construction des identités entrepreneuriales ;
- Effectuation, « Bricolage », sérendipité et entrepreneuriat ;
- Défaillance / échec entrepreneurial ;
- Micro-finance ;
- Entrepreneuriat, pouvoir et soumission ;
- Entrepreneuriat et excès du capitalisme ;
- Entrepreneuriat et développement ;
- etc...

PROGRAMME GÉNÉRAL

Jeudi 19 mai 2016

8.45 Accueil café

9.30 Séance plénière d'ouverture

Alain Vas, (Université Catholique de Louvain), Vice-Recteur UCL en Hainaut
Amélie Jacquemin (Louvain School of Management, Université catholique de Louvain), Co-Présidente du Comité Scientifique
Alain Bloch (Cnam, HEC Paris)
Nazik Fadil (EM Normandie)
Olivier Germain (Ecole des Sciences de la Gestion, Université du Québec à Montréal)

10.15 – 12.15 Ateliers parallèles

12.15 Déjeuner

14.00 – 15.30 Ateliers parallèles

15.30 Pause-santé

16.00 – 17.30 Ateliers parallèles

17.30 Fin de la première journée

19.00 Diner de Gala à la Brasserie St-Feuillien (départ en bus depuis l'hôtel Dream)

Vendredi 20 mai 2016

8.30 Accueil café

9.00 – 11.00 Ateliers Parallèles

11.00 Pause-santé

11.15 – 12.15 Conférence plénière sur le thème général des approches critiques en entrepreneuriat
Chris Steyaert (Université St Gallen)
Laurent Taskin (Louvain School of Management, Université catholique de Louvain)

12.15 Séance plénière de clôture

Michel De Wolf (Louvain School of Management, Université Catholique de Louvain), Doyen de la Louvain School of Management

Frank Janssen (Louvain School of Management, Université Catholique de Louvain), Co-Président du Comité Scientifique

Alain Bloch (Cnam, HEC Paris)

Nazik Fadil (EM Normandie)

Olivier Germain (Ecole des Sciences de la Gestion, Université du Québec à Montréal)

13.00 Déjeuner et remise du prix HEC Bruno Roux de Bezieux

Remise du prix HEC Bruno Roux de Bezieux de la meilleure contribution par Alain Bloch (Cnam, HEC Paris)

Résumé :

Dans ce séminaire, nous discuterons de la gestion des ressources humaines au Québec en traçant un portrait de l'évolution du champ académique, indissociable de l'évolution de l'objet en Amérique du Nord et au Québec depuis la révolution industrielle. Conséquemment, nous revenons sur l'évolution des conceptions de la GRH en Amérique du Nord ainsi que leurs cheminements au sein des écoles en relations industrielles. Nous montrons qu'un décrochage a eu lieu au détour des années 60 et que, malgré la volonté affichée par plusieurs chercheurs durant les années 80 de vouloir enracer à nouveau la GRH dans le paradigme pluraliste des origines, cette transition semble difficile compte tenu de l'opposition de certains auteurs en relations industrielles et du processus d'auto-exclusion qui s'opère par la poursuite de ses seules visées prescriptives.

Ensuite, au départ du cas particulier du Québec, nous mettons en exergue plusieurs phénomènes structurants qui ont participé au déracinement évoqué supra. Nous terminons notre proposition en suggérant un réinvestissement des fondements de la GRH dans l'enseignement en vue de nous éloigner de l'hégémonie des conceptions normatives et prescriptives qui, selon nous et en accord avec les perspectives critiques des études sur le travail et l'emploi, participent à la réémergence du conflit socio-économique et à la disparition du sens du travail.

Is Loyalty+Habit Better? Exploring the Interference Between Loyalty and Habit

An LouRIM-CERMA seminar, co-organized with CCMS and UNamur, by Prof. Yuping Liu-Thompkins,
Old Dominion University

December 16, 2016 from 9:30 to 12:00 in Doyen 21, Louvain-la-Neuve and Room number 2 (bât. A,
3rd floor) in Mons.

EVERYBODY WELCOME

Speaker : Prof. Yuping Liu-Thompkins , Old Dominion University

Title: Is Loyalty+Habit Better? Exploring the Interference Between Loyalty and Habit

Date: 16 December at 9:30

Room : Doyens 21, Louvain-la-Neuve and Room nber 2 (bât. A, 3rd floor) in Mons

Abstract:

When shoppers repeatedly buy from a business, it is often driven by two very distinct forces: loyalty and habit. While loyalty refers to a deeply held, enduring commitment to rebuy from a business, habit reflects a behavioral disposition in which past responses are triggered directly by associated contextual cues. Few existing studies have examined loyalty and habit simultaneously, although both of these two forces can exert an influence on a shopper's repeat buying decisions. One particularly important question missing from the literature is how loyalty and habit may interact with each other. In other words, when both loyalty and habit are present, what is the combined outcome of these forces? Do the two effects add up and reinforce each other, or is the mechanism more complicated? We conducted four empirical studies to answer these questions and to explore the possible interaction patterns between loyalty and habit. Our results showed consistent interference between loyalty and habit over a variety of consumer responses, including reaction to brand-related marketing offers, resistance to alternatives in a stock-out situation, and tendency to engage in word-of-mouth.

Professeurs : SWAEN KERVYN	Valérie Nicolas	UCL UCL
Descriptif ou Programme :		
Abstract:		

As newly minted researchers, doctoral students often struggle to grasp the long and arduous process of getting their ideas published. This interactive seminar aims to answer some of the common questions regarding publication strategies from a doctoral student's standpoint. Issues to be addressed will include successful research problem identification, target journal selection, writing for journal publications, journal review process, how to deal with revisions, among others. The overall goal of the seminar is to give doctoral students some "insider knowledge" of the academic publication process and help them feel more informed and confident about the increasingly competitive publication landscape.

Descriptif ou Programme :	From "Push Out" to "Pull In" Together: An Analysis of Social Entrepreneurship			
A LouRIM-CRECIS seminar by Rocío Aliaga-Isla from HEC Liège November 15, 2016 at 1:30PM in Doyens 22				
Speaker: Rocío Aliaga-Isla, HEC Liège Title: From “Push Out” to “Pull In” Together: An Analysis of Social Entrepreneurship Readers: Amélie Jacquemin and Ann Verbeke Date: November 15, 2016 at 01:30 PM Room : Doyens 22, Place des Doyens 1, 1348 Louvain-la-Neuve				
Abstract : Definitions are important! They are composed of words that express what people think. Despite				

numerous efforts to bring about a clear and unbiased definition of social entrepreneurship, there is still confusion as how social entrepreneurship should be defined. The objective of this paper is not to state a novel definition, this means not to "push out", but rather to "pull in" together in order to better understand what the scholars are talking about through their own social entrepreneurship (SE) definitions. In doing so, we contribute to the literature on social entrepreneurship by synthesizing and analyzing the social entrepreneurship definitions to better understand the field. To do so, a combination of methods was used: systematic review to reach the articles proposing definitions and memetic analysis to understand the content of the definitions by analyzing their memes. From the analysis, three main categories that cluster memes by their similar semantic space were considered: entity types, entrepreneurial opportunities and intentions/promises. Results confirm the lack of consistent meaning of the categories under study as well as the fragmentation and the controversial character of the SE field. From the analysis of memes, some stylized facts and propositions are made for contributing to the advancement and understanding of the SE literature.

Keywords: social entrepreneurship, definitions, memes, systematic review

Descriptif ou Programme :	Anaïs Gretry (doctoral candidate in marketing at ULg-HEC and Radboud University, Nijmegen, The Netherlands) and Maartje Mulders (doctoral candidate in psychology at ULB) will present their doctoral work. Both talks are scheduled in Louvain-la-Neuve on October 21st, 2016, from 14:30 to 17:00 (Doyens building, room 22)	

At 14:30

« 'That's embarrassing!' Effects of brand anthropomorphism on intimate disclosure » by Anaïs Gretry co-authored with Horváth Csilla and Belei Nina (Institute for Management Research, Radboud University Nijmegen, The Netherlands)

Abstract:

We investigate how brand anthropomorphism impacts consumers' propensity to disclose intimate information to brands. The results of three experiments provide converging evidence that anthropomorphizing a brand has a detrimental effect on consumer disclosure of intimate information. This negative effect stems from the perception that an anthropomorphized brand is mindful and capable of evaluating others, which increases the level of embarrassment that consumers experience when revealing intimate information. However, we show that indirect questioning mitigates the detrimental effect of brand anthropomorphization on intimate self-disclosure by reducing the embarrassment felt by consumers. Our results have important implications for marketers pursuing anthropomorphization as a tool to foster consumer-brand relationships.

Bio:

Anaïs Gretry is a Ph.D. candidate in the Department of Marketing at both (1) University of Liege – HEC Management School and (2) Radboud University - Nijmegen School of Management. She holds a M. Sc. degree in Management Sciences from HEC Management School. In Winter 2014, she was a visiting scholar in the marketing department at the Sauder School of Business, University of British Columbia. Anaïs investigates the impact of brand communication on consumer-brand relationships in a digital context. She has presented her research at several international conferences, including the Brands and Brand Relationships Conference 2013, 2016 (Boston; Toronto), EMAC 2013, 2015 (Istanbul; Leuven), Academy of Marketing Science 2014 (Indianapolis), and at the Doctoral Colloquium of the Association for Consumer Research 2014 (Baltimore). During the Brands and Brand Relationships Conference 2016 (Toronto), she received the Best Paper Award delivered by GFK and the Brands and Brand Relationships Institute for outstanding research.

« How do nutrition claims influence consumers' perception and attraction for food products » by Maartje Mulders co-authored with Horváth Csilla and Belei Nina (Institute for Management Research, Radboud University Nijmegen, The Netherlands)

Abstract:

Nutrition claims have been used in order to highlight the particular benefits of a food product. However, such claims are most common on processed products. Two studies investigated how consumers respond towards nutrition claims on fresh and processed vegetables, and if different claims have different effects. Study 1 ($n=305$) investigated whether consumers would be more likely to choose a bag of fresh vegetables that was marked by the claim of 'fiber' vs. that of 'colic nutriments'. Study 2 ($n=200$) investigated the claims 'fiber' vs. 'inulin' on choice for fresh (i.e., tomato) and processed (i.e., tomato-based pasta sauce) food products. Three research questions were addressed: 1. Are consumers more likely to choose a product with a claim vs. one with no claim? 2. Are they more likely to choose a product with a familiar claim vs. a novel claim? and 3. Do

the first two types of choices differ for fresh vs. processed products? Results of these 2 studies will be discussed, as well as the implication for consumer research.

Bio:

Maartje did her Bachelor and Master degree in the Netherlands, at the University of Maastricht. She completed her bachelor degree at University College Maastricht, where she first got interested in psychology, and after 3 years graduated with a focus on Microbiology and Psychology. After her bachelor, she did a Research Master in Cognitive and Clinical Neuroscience, in the psychopathology track. During this master, she did her internship in Oregon (USA), where she researched how the brain's reward system responds to food cues (fMRI research), as well as possible hormonal influences for women on food consumption. Her interest for food, and food research, led her to Belgium, where she now does a Ph.D. at the Université Libre de Bruxelles, with the Food4Gut team. The Food4Gut project is an innovative and interdisciplinary research group, aiming to find means to help combat the obesity crisis. They investigate how the old and forgotten vegetables that contain a specific type of fibers, affect humans' digestion and well-being. In this group, Maartje researches the food marketing side of things, and how people understand nutrition claims and how this impacts their food choice, from a psychological perspective. More information on the Food4Gut group can be found here: <https://www.uclouvain.be/467674.html>.

3.2.11 LouRIM/CEMIS - Conférence - Pr Oscar PASTOR, Polytechnic University of Valencia

Descriptif ou Programme :		
<p>Wednesday, 12th October 2016 at 4:30 Room Doyens 32 (Place des Doyens, 1 – 1348 Louvain-la-Neuve)</p> <p>The conference will be introduced by Prof. Jean Vanderdonckt (UCL) Free Access</p> <p>Everybody accepts that understanding the Human Genome is a big challenge for the humanity. It will take at the very least decades to achieve such a goal reasonably well. But new advances that are showing promising results come continuously. Day after day new data are provided and new information is derived from them. As DNA sequencing technologies improve and evolve, it is an evidence that the rate of data generation at a local level is increasing dramatically. In this scenario, assuring the interoperability and consistence of data at the global level becomes both a challenge and a need. To face these problems adequately, the most advanced Information Systems design technologies are strongly required, to cover the needs of better data capture, organization and</p>		

storage, improved data analysis and interoperability, and more efficient data standardization with the support of foundational ontologies. This principle is in the “Genome” of this keynote. Using Advanced Conceptual Model and Data Technologies, there is an opportunity to understand the secrets of life that the Genome Code hides. More and more data that relate genotype and phenotype are available, with especially attractive clinical applications. These ideas will be approached in the keynote, showing that the challenge of understanding the human genome can suppose a conceptual revolution: understanding the genome could allow to improve human being features, something never before in the hand of we, humans. This the idea of the title: Homo Sapiens becoming Homo Genius being able to understand and manage the principles of life, and subsequently improve then. ,

Full Professor and Director of the Research Center on "Métodos de Producción de Software (PROS)" at the Universidad Politécnica de Valencia (Spain). He received his Ph.D. in 1992. He was a researcher at HP Labs, Bristol, UK. He has published more than two hundred research papers in conference proceedings, journals and books, received numerous research grants from public institutions and private industry, and been keynote speaker at several conferences and workshops. Chair of the ER Steering Committee, and member of the SC of conferences as CAiSE, ESEM, ICWE, CIBSE or RCIS, his research activities focus on conceptual modeling, web engineering, requirements engineering, information systems, and model-based software production. He created the object-oriented, formal specification language OASIS and the corresponding software production method OO-METHOD. He led the research and development underlying CARE Technologies that was formed in 1996. CARE Technologies has created an advanced MDA-based Conceptual Model Compiler called IntegraNova, a tool that produces a final software product starting from a conceptual schema that represents system requirements. He is currently leading a multidisciplinary project linking Information Systems and Bioinformatics notions, oriented to designing and implementing tools for Conceptual Modeling-based interpretation of the Human Genome information.

Descriptif ou Programme :		
<p>Résumé</p> <p>La présentation vise à décrire une démarche de valorisation des résultats d'une recherche sur le management de l'innovation, obtenus dans le cadre d'une approche constructiviste : construction de résultats de recherche en réponse à une demande de terrain, modélisation, retour vers la théorie</p>		

pour définir une question de recherche puis effectuer une revue de la littérature ciblée et, enfin, réponse à la question de recherche en discutant le modèle obtenu sur le terrain.

Est pris, pour illustrer cette démarche, le cas d'une recherche conduite pendant plus de dix ans avec des cadres de direction d'une entreprise de taille intermédiaire opérant dans l'industrie aéronautique. A ainsi été co-construit un modèle novateur d'organisation de la R&D et de l'innovation, ancré sur les théories des organisations et la stratégie. Deux articles différents ont été présentés à des conférences internationales en 2015-2016 et sont en cours d'amélioration pour soumission à des revues académiques.

CCMS research seminar series		
A. "Parsu" Parasuraman (University of Miami) - lecturer in the CCMS research seminar series.		

Dr. Parasuraman's seminar (15:00-17:00) will be preceded by a doctoral talk with Thomas Leclercq, doctoral candidate at UCL (from 14:00 to 15:00). Thomas studies how to manage gamification mechanics to create, boost and maintain customers engagement in value cocreation processes such as New Products/Services Development. His presentation will be entitled Essays on the engagement mechanics in the value cocreation process: the case of gamification".

----- A. "Parsu" Parasuraman's talk -----

Location & Date

April 15, 2016, from 15:00 to 17:00 at UNamur, Faculty of Economics, Social Sciences and Business Administration (Rempart de la Vierge, 8 – 5000 Namur), Salle Camille Joset (room 41, 4th floor).

Title:

"Some Reflections on My Career and Making Significant Contributions through Programmatic Research"

Abstract:

In this presentation, Dr. Parasuraman will provide an overview of his over three-decade-long academic career and the evolution of his research during that period. In particular, the presentation will focus on his multi-phase, multi-sector program of research on service quality, customer service, and the role of technology in service delivery. He will discuss the research approach used and insights gained from each of the research phases and how each phase progressed into the next. During the course of this discussion, he will also touch on the nature, challenges and rewards of conducting programmatic research, as well as the impact of such research on theory and practice.

Bio:

A. Parasuraman ("Parsu") is a Professor and Holder of the James W. McLamore Chair in Marketing (endowed by the Burger King Corporation) and Director of PhD Programs at the School of Business, University of Miami. He obtained his Bachelor of Technology degree in 1970 from IIT-Madras and Master of Business Administration degree in 1972 from IIM-Ahmedabad, India. His Doctor of Business Administration degree, which he obtained in 1975, is from Indiana University, Bloomington, Indiana.

Dr. Parasuraman teaches and does research in the areas of services marketing, service-quality measurement and improvement, and the role of technology in marketing to and serving customers. In 1988 Dr. Parasuraman was selected as one of the "Ten Most Influential Figures in Quality" by the editorial board of *The Quality Review*, co-published by the American Quality Foundation and the American Society for Quality Control. He has received many distinguished teaching and research awards, including multiple Best Professor Awards given by Executive and Regular MBA Classes and the Provost's Award for Scholarly Research at the University of Miami. In 1998 he received the American Marketing Association's "Career Contributions to the Services Discipline Award" [an annual award bestowed upon one individual who has had a sustained and far-reaching impact on the field]. He received the Academy of Marketing Science's "Outstanding Marketing Educator Award" in 2001 and was designated as a "Distinguished Fellow" of the Academy in 2004. He has also been named to the Chartered Institute of Marketing (U.K.)'s "Guru Gallery," which profiles the 50 leading marketing thinkers worldwide. In 2005 he received a "Distinguished Alumnus Award" from IIT-Madras, his undergraduate alma mater. In 2008 the e-TQM College (now Hamdan Bin Mohammed e-University) in Dubai established "The Parasuraman Research Grant on Service Quality," an annual award to foster more scholarly research on service quality throughout the Middle East region. In 2009 the Society for Marketing Advances honored him with the "Elsevier Distinguished Scholar" award. In

2011 Maastricht University in the Netherlands conferred upon him a Honorary Doctorate degree. He is the recipient of the 2012 Paul D. Converse Award for significant scholarly contributions to marketing and the 2013 Gil Churchill Award for Lifetime Contributions to Marketing Research. In 2016 he was induced as a Fellow of the American Marketing Association.

Dr. Parasuraman has published over 130 articles in journals such as the Journal of Marketing, Journal of Marketing Research, Journal of Retailing, and Sloan Management Review. He has served as editor of the Journal of the Academy of Marketing Science for a 3-year term (1997-2000) and as editor of the Journal of Service Research for a 4-year term (2005-2009). He also serves on the editorial review boards of ten journals. In addition to coauthoring Marketing Research, a college textbook, Dr. Parasuraman has co-authored three other business books written for practitioners: Delivering Quality Service: Balancing Customer Perceptions and Expectations, Marketing Services: Competing Through Quality, and Techno-Ready Marketing: How and Why Your Customers Adopt Technology. He is an active consultant and has conducted dozens of executive seminars on service quality, customer satisfaction and the role of technology in service delivery in many countries. [Read more.](#)

Title:

"Influence of Lifetime Information on Consumer"

co-authored with Mickaël Dupré (chercheur et responsable R&D, Sircome) & Gaëlle Boulbry (maître de conférences, Université de Bretagne Sud).

Abstract:

Cette étude a été réalisée pour le compte du Comité économique et social européen (EESC), par l'agence Sircome en partenariat avec l'Université de Bretagne Sud et l'Université de Bohème du Sud (République Tchèque). Elle avait pour objectifs d'analyser l'influence de l'affichage et des modalités d'affichage de la durée de vie des produits sur l'intention d'achat des consommateurs.

L'expérimentation conçue reposait sur une simulation d'achat sur un site d'e-commerce couplée à un questionnaire en ligne. En se connectant sur le site, le participant se voyait désigner 3 produits dont il devait simuler l'achat en ligne (cafetière, lave-linge, aspirateur, smartphone, télévision, imprimante, chaussures de sport, jeans ou valise - choix de 10 modèles par catégorie). Une fois qu'il avait sélectionné ses produits et validé son panier, il était dirigé vers un questionnaire permettant de mesurer différentes variables. Cette enquête a été réalisée dans 4 zones géographiques européennes : France, Espagne, République Tchèque et Benelux et a été administrée en 4 langues (français, espagnol, anglais et tchèque). L'échantillon est constitué de 2917 participants de profils variés. Les résultats montrent clairement que l'indication de la durée de vie des produits commercialisés entraîne un changement de comportement des consommateurs au moment de leur acte d'achat. L'affichage de la durée de vie a ainsi permis de favoriser les ventes virtuelles de l'ensemble des produits testés ayant une durée de vie supérieure au détriment de produits similaires ayant une durée de vie plus courte. Une exception à signaler : la présence de labels de durée de vie n'a eu aucun impact significatif sur la vente de téléviseurs. Cet effet positif peut se manifester à tous les niveaux de gamme et se fait ressentir quel que soit le mode de présentation de la durée de vie : affichage en termes d'un nombre d'années minimum d'utilisation, d'un nombre minimum d'utilisation, d'un coût par an ou bien encore un classement de A à G inspiré des classes énergétiques. Nos résultats montrent, en outre, que, par le biais de l'affichage de la durée de vie, les ménages sont incités à payer plus cher un produit plus durable de meilleure qualité.

Bio:

Mathieu Jahnich is a strategic communications and marketing consultant based in Paris, France. After earning a PhD in science and environmental communication (Ecole Normale Supérieure de Cachan), he spent ten years within various research institutes and the French ministry of ecology, first as a researcher then as a communications manager. He is the founder and manager of Sircome, a strategic consulting firm specialised in marketing, communications and CSR. He is also associate professor in corporate communication at the University of East Paris and a founding member of the International Environmental Communication Association.

Title:

"Curbing Product Obsolescence Issues: Understanding Life Span Information Framing Effects on Consumers"

Abstract:

The design of many goods seeks to speed up consumers' replacement rates by hastening the relative loss of product value, reflecting planned obsolescence practices. Some suggested solutions to planned obsolescence include promoting product reparability, lengthening compulsory product warranties, or increasing product life spans. Governmental and non-governmental initiatives recommend the publication of information about average product life spans. But, little evidence exists regarding the influence of product life span information on consumers. Therefore, the main objectives of this research are to investigate the impact of product life span information on consumers' product perception and to determine what conditions enhance or limit the observed effects. The results of three exploratory experimentations will be presented.

Bio:

Valérie Swaen is professor of corporate social responsibility (CSR) and marketing at the Louvain School of Management of the Université catholique de Louvain in Belgium and at IESEG School of Management (France). She is the head of the Louvain CSR Network of the Louvain School of Management and has held different chairs in CSR (with Belgacom, GDF SUEZ, Solvay, and the Philippe de Woot Award for the best Master's thesis related to CSR). She has published extensively in matters related to CSR, spanning different management fields (marketing, organizational behavior, strategy, and accounting), though her main research interest centers on stakeholders' reactions to CSR communication. Descriptif ou Programme :		
Karine Charry (Iéseg School of Management, Lille) is our next lecturer in the CCMS research seminar series (see short bio hereafter).		
<p>Karine's seminar (15:00-17:00) will be preceded by a doctoral talk with Virginie Bruneau, PhD candidate at UCL & UNamur (from 14:00 to 14:45). Virginie is exploring in her PhD the participation in loyalty programs (LPs) of loyalty program members, from definition and measurement to its antecedents and consequences. Her talk will first give a brief overview of her doctoral work and will then focus on some ongoing experimental studies about how the design of LPs induces the participation of LP members.</p> <p>----- Karine Charry's talk -----</p>		
<p>Location & Date February 5, 2016, from 15:00 to 17:00 at UCL (room doyen 22, 2nd floor, 1, Place des Doyens, 1348 Louvain-la-Neuve).</p>		
<p>Title: "I tweet, they follow, you believe : The mediating role of Influence of Presumed Influence in Twitter (prosocial) communication" co-authored with Tina Tessitore (Iéseg School of Management)</p>		
<p>Abstract: Social media is changing the way we communicate but also the way we are influenced. With this paper, we explain how unknown sources from the audience such as micro-bloggers may be perceived as credible, hence, why they are very effective communicators. Based on an experiment conducted among 201 French young adults, we show that targets are impacted by the influence they presume a highly followed blogger has on third parties. Credibility of a source becomes merely inferred by the number of followers. We also demonstrate that this presumed influenced inhibits the phenomenon of reactance, even when the message is repeated. Setting this research in the context of pro-social messages (healthy eating recommendations), we offer an additional tool to social marketers. Investing in expensive celebrities to support cause would not be necessary as less expensive but highly followed sources may be as effective.</p>		
<p>Bio: Karine Charry is Associate Professor of Marketing at Iéseg School of Management. Her research focuses on young consumers (mainly children) and persuasion mechanisms in the context of social marketing issues (such as childhood obesity and pro-environmental behaviors). Her work has been published in Journal of Business Ethics, International Journal of Advertising, International Journal of Retail and Distribution Management, Recherche et Applications en Marketing, ... Her ten-year experience in various companies and sectors, in B-to-B and B-to-C, contributes to the pragmatic perspective she also brings to her teaching (Social Marketing, Persuasion in Marketing Communication, Consumer Behavior in a Digital World,...) and publications.</p>

Evénement CCMS

le 30 septembre, exceptionnellement de 10h à 13h (UCL, Campus FUCaM, bâtiment A, salle du 3e, 151 Chée de Binche, 7000 Mons).

Karine et Gordy nous entretiendront sur leurs thèmes de recherche privilégiés et les projets qu'ils envisagent de mener dans les années à venir. Gordy présentera également une recherche intitulée « Impacts de vidéos publicitaires en fonction du média de diffusion » dont vous trouverez ci-dessous un résumé.

L'objectif de cette étude en laboratoire a été d'examiner de façon rigoureuse la mesure dans laquelle les impacts des publicités diffèrent en fonction du média de diffusion, en dépassant les limites de mesures indirectes auto-rapportées (ex : échelle 'AdTrust' ; Soh et al., 2009). Dans cette recherche, les sujets (84 personnes de 20 à 60 ans) ont été invités à choisir des vidéos thématiques sur 3 médias majeurs : la télévision, Youtube, et un site d'information sur Internet (design intra-sujet avec contrebalancement de l'ordre des médias). Dans chacun des médias, la diffusion de la vidéo thématique choisie a été précédée par la diffusion d'une publicité non-souhaitée (avec contrebalancement des différentes publicités au travers des 3 médias), en simulant les conditions réelles (ex : possibilité d'interrompre l'annonce après 5 secondes sur Youtube). Les propriétés des vidéos thématiques et des publicités préalables ont été contrôlées (sur base d'un pré-test), de même que les contenus des médias (fictifs et spécialement créés pour les besoins de l'étude). Les mesures fondamentales ont porté sur des indices de mémoire et d'attitude (produit, marque, publicité), sur les directions et les temps de regard (oculométrie) et sur le rythme cardiaque des sujets.

Descriptif ou Programme :		
<p>On April 04-07, 2016, the CeSAM jointly organizes the 6th of its regular CEMS PhD courses in finance. The 4-day intensive course will be taught by Jens Christensen (Federal Reserve Bank of San Francisco) at the National Bank of Belgium, in Brussels. The course will cover the most recent literature on how to model the term structure of bond yields including the challenges posed by the asymmetric behavior of yields near their lower bound.</p> <p>CEMS PhD course</p> <p>Term Structure Models and the Zero Lower Bound</p> <p>Jens Christensen (Federal Reserve Bank of San Francisco)</p> <p>April 04-07, 2016 at the National Bank of Belgium, Brussels</p> <p>Course title: Term Structure Models and the Zero Lower Bound</p> <p>The course will cover the most recent literature on how to model the term structure of bond yields including the challenges posed by the asymmetric behavior of yields near their lower bound. Jens Christensen is a leading expert in interest rate term structure modeling and his research has been widely published in leading academic journals such as the Economic Journal, the Journal of Business and Economic Statistics, the Journal of Econometrics, the Journal of Financial Econometrics, Journal of Monetary Economics, and the Journal of Money, Credit, and Banking amongst others. Jens</p>		

Christensen is a research advisor in the Economic Research Department of the Federal Reserve Bank of San Francisco, which he joined in 2006 after receiving his PhD in finance from Copenhagen Business School. He also holds an MSc in economics from the University of Copenhagen.

Part I: Term Structure Modeling in Normal Times

In the first part of the course, we first introduce the canonical affine term structure models as outlined by Dai and Singleton (2000) with particular focus on the canonical Gaussian models whose estimation is discussed in Joslin, Singleton, and Zhu (2011) and Hamilton and Wu (2012). Second, we analyze the class of arbitrage-free Nelson-Siegel models introduced in Christensen, Diebold, and Rudebusch (2011) and its extension to allow for stochastic volatility provided in Christensen, Lopez, and Rudebusch (2014a). Third, we will discuss the estimation of these models based on the Kalman filter and issues related to finite-sample bias, see Bauer, Rudebusch, and Wu (2012) and Christensen, Lopez, and Rudebusch (2015b).

Part II: Term Structure Modeling and the Lower Bound Problem

In the second part of the course, we focus on the problems arising from the fact that the key policy rates of the world's most prominent central banks have remained at or near their effective lower bounds for many years by now. We will study shadow-rate models and their estimation based on the extended Kalman filter in great detail since this is the leading solution to the lower bound problem. However, we will also analyze the novel stay-at-zero affine models developed by Monfort et al. (2015) and the linear-rational models introduced in Filipovic, Larsson, and Trolle (2014).

Part III: Term Structure Modeling and Applications to Policy Questions

In the third part of the course, it is demonstrated how term structure models can be used to analyze problems relevant to monetary policy. First, the analysis in Christensen and Rudebusch (2012) and Christensen and Krogstrup (2015) are described. Both studies look into how quantitative easing (QE) affects long-term interest rates. Understanding how QE works is likely to be useful for how to handle the exit from the unconventional policies. Second, we will stress test the Fed's assets and income following Christensen, Lopez, and Rudebusch (2015a). In this case, the relevant policy questions are: What is the likelihood of large losses to the Fed's securities portfolio? What is the chance of a halt to the remittances to the U.S. Treasury? This research emphasizes the potential costs of QE and can also be used to stress test commercial banks' portfolios. Finally, we follow Christensen, Lopez, and Rudebusch (2010) and discuss a joint modeling of nominal and real yields in order to extract the inflation expectations embedded in Treasury yields.

Course outline

Monday 4 April

09.00-10.30 Session 1 – Term Structure Modeling in Normal Times (1/3)

10.30-11.00 Coffee break

11.00-12.30 Session 2 – Term Structure Modeling in Normal Times (2/3)

12.30-14.00 Lunch

14.00-16.00 Session 3 – Student presentations (30 minutes depending on the number of presenters)

Tuesday 5 April

09.00-10.30 Session 4 – Term Structure Modeling in Normal Times (3/3)

10.30-11.00 Coffee break

11.00-12.30 Session 5 – Term Structure Modeling and the Lower Bound Problem (1/3)
12.30-14.00 Lunch
14.00-16.00 Session 6 – Student presentations (30 minutes depending on the number of presenters)

Wednesday 6 April
09.00-10.30 Session 7 – Term Structure Modeling and the Lower Bound Problem (2/3)
10.30-11.00 Coffee break
11.00-12.30 Session 8 – Term Structure Modeling and the Lower Bound Problem (3/3)
12.30-14.00 Lunch
14.00-15.30 Session 9 – Student presentations (30 minutes depending on the number of presenters)

Thursday 7 April
09.00-10.30 Session 7 – Term Structure Modeling and Applications to Policy Questions (1/2)
10.30-11.00 Coffee break
11.00-12.30 Session 8 – Term Structure Modeling and Applications to Policy Questions (2/2)
12.30-14.00 Lunch
14.00-15.30 Session 9 – Student presentations (30 minutes depending on the number of presenters)

Location

The course will take place at the National Bank of Belgium, Rue Montagne aux Herbes Potagères 61, 1000 Brussels. Belgium

Organizers

NBB and UCL (CeSAM and CORE). We are grateful to the financial support of LouRIM, CORE, the foundation Louvain and Tree Top AM.

This seminar is part of the LouRIM Seminar series		
<p>- Abstract</p> <p>Building on Faff's (2015) pitching template, in the current paper I further explore a methodical approach to pitching a new research proposal. Emphasis is given to providing general advice to both "pitchers" and "pitchees". Moreover, the current paper provides an update on an extensive array of supplementary online resources. Most notably, to demonstrate that the pitch template is readily adaptable to many fields, a library of completed examples currently spans SEVENTY TWO alternative research areas, including: (1) corporate finance; (2) accounting; (3) corporate sustainability; (4) interdisciplinary; (5) qualitative; (6) management; (7) chemistry; (8) mechanical engineering; (9) computer science; (10) mathematics; (11) physics; (12) healthcare; (13) psychology; (14) strategy; (15) governance; (16) sport; (17) energy policy; (18) climate change; (19) research policy; (20) taxation; (21) banking; (22) behavioural finance; (23) public policy and regulation; (24) education; (25) market microstructure; (26) information systems; (27) immunology; (28) biology; (29) management accounting; (30) multidisciplinary (climate science); (31) accounting theory; (32) accounting history; (33) archaeology; (34) behavioural economics; (35) humour; (36) phytology; (37) organic chemistry; (38) public sector accounting; (39) Islamic finance; (40) consumer marketing; (41) tourism; (42) philosophy; (43) research advice; (44) research student creativity; (45) pharmacy; (46) mining engineering; (47) education for sustainability; (48) public health; (49) corporate tourism; (50) sociology; (51) virology; (52) food science; (53) first aid; (54) emergency medicine; (55) orthopaedic medicine; (56) stock liquidity; (57) non-bank financial institutions; (58) agile software development; (59) bank subsidy; (60) hedge funds; ... (65) financial literacy; ... (70) imputation tax credits; (71) executive overconfidence; (72) security class actions. Other online materials and support include: web portal (PitchMyResearch.com); YouTube videos; themed pitch days; pitching competitions. The current paper is a companion to: Faff (2016a) "a year in review" of pitching and Faff (2016b) mapping "Pitching Research" Tasks into the RSD7 Framework. Also, this project has been identified as one of 30 Innovations that Inspire across the AACSB network worldwide Business Schools.</p>

7th CEMS Ph.D. Course on Identification Strategies in Business and Finance with Murillo Campello (Cornell University)		
Identification Strategies in Business and Finance by Murillo Campello (Cornell University) December 14-15, 2016 in Louvain-la-Neuve, Belgium. Organized by LFIN, CORE, LouRIM and		
<p>This is a thorough PhD level class covering modern empirical work. For concreteness, the course is designed to help students understand how to operationalize empirical research on topics that are central to empirical finance and business. The overarching goal is to expose students to “state-of-the-art” empirical research methods and prepare them to conduct their own work using new tools. All students with an interest in finance, economics, accounting, human resources, and related disciplines are welcome to take it.</p>		
<p>Day 1</p> <p>10:30 - 11:00 : Welcome coffee</p> <p>11:00 - 13:00 : Course Introduction & Endogeneity & Treatment Effects Framework</p> <p>13:00 - 14:30 : Lunch</p> <p>14:30 - 16:30 : Empirical Methods I & II and Difference-in-Differences & LATE Estimators</p>		
<p>Day 2</p> <p>09:30 - 10:00 : Welcome coffee</p> <p>10:00 - 12:00 : Empirical Methods II & III and Instrumental Variables & Regression Discontinuity Design</p> <p>12:00 - 14:00 : Lunch</p> <p>14:00 - 16:00 : Empirical Methods III and Matching Estimators</p>

Descriptif ou Programme :		
Ph.D. course on Big-Data in Dynamic Predictive Econometric Modeling by Francis X. Diebold (University of Pennsylvania)		
October 5th-6th, 2016 in Brussels, Belgium.		
Francis X. Diebold is Paul F. and Warren S. Miller Professor of Social Sciences, and Professor of Economics, Finance and Statistics, at the University of Pennsylvania. He has published widely in econometrics, forecasting, finance, and macroeconomics, and he has served on the editorial boards of leading journals including <i>Econometrica</i> , <i>Review of Economics and Statistics</i> , <i>International Economic Review</i> , <i>Journal of Business and Economic Statistics</i> , and <i>Journal of Applied Econometrics</i> . He is an NBER Faculty Research Associate, as well as an elected Fellow of the Econometric Society, the American Statistical Association, and the International Institute of Forecasters. He has been the recipient of Sloan, Guggenheim, and Humboldt fellowships, Co-Director of the Wharton Financial Institutions Center, and President of the Society for Financial Econometrics. He lectures widely and has held visiting professorships at Princeton, Chicago, Johns Hopkins, and NYU. He has received several awards for outstanding teaching, and his academic "family" includes more than 70 Ph.D. students. Diebold's academic research is firmly linked to practical matters: During 1986-1989 he served as an economist under both Paul Volcker and Alan Greenspan at the Board of Governors of the Federal Reserve System, during 2007-2008 he served as an Executive Director of Morgan Stanley Investment Management, and during 2012-2013 he served as Chairman of the Federal Reserve System's Model Validation Council.

Whatever it takes: The Real Effects of Unconventional Monetary Policy		
Viral Acharya (co-authored by Tim Eisert, Christian Eufinger and Christian Hirsch)		
Abstract		

On July 26, 2012 the ECB's president Mario Draghi announced to do "whatever it takes" to preserve the Euro and subsequently launched the Outright Monetary Transactions (OMT) Program, which led to a significant increase in the value of sovereign bonds issued by European periphery countries. As a result, the OMT announcement indirectly recapitalized periphery country banks due to their significant holdings of these bonds. However, the regained stability of the European banking sector has not fully transferred into economic growth. We show that this development can at least partially explained by zombie lending motives of banks that still remained undercapitalized after the OMT announcement. While banks that benefited from the announcement increased their overall loan supply, this supply was mostly targeted towards low-quality firms with pre-existing lending relationships with these banks. As a result, there was no positive impact on real economic activity like employment or investment. Instead, these firms mainly used the newly acquired funds to build up cash reserves. Finally, we document that creditworthy firms in industries with a prevalence of zombie firms suffered significantly from the credit misallocation, which slowed down the economic recovery.

New approaches to Monetary Policy				
John Cochrane				
The seminar is a mix of 3 papers:				
Do Higher Interest Rates Raise or Lower Inflation?				
The standard “new-Keynesian” model accounts well for the fact that inflation has been stable at a zero interest rate peg. However, if the Fed raises nominal interest rates, the same model predicts that inflation will smoothly rise, both in the short run and long run. This paper presents a series of failed attempts to escape this prediction. Sticky prices, money, backward-looking Phillips curves, alternative equilibrium selection rules, and active Taylor rules do not convincingly overturn the result. The evidence for lower inflation is weak. Perhaps both theory and data are trying to tell us that, when conditions including adequate fiscal-monetary coordination operate, pegs can be stable and inflation responds positively to nominal interest rate increases.				
Monetary Policy with Interest on Reserves				
I analyze monetary policy with interest on reserves and a large balance sheet. I show that conventional theories do not determine inflation in this regime, so I base the analysis on the fiscal theory of the price level. I find that monetary policy can peg the nominal rate, and determine expected inflation. With sticky prices, monetary policy can also affect real interest rates and output, though higher interest rates raise output and then inflation. The conventional sign requires a				

coordinated fiscal-monetary policy contraction. I show how conventional new-Keynesian models also imply strong monetary-fiscal policy coordination to obtain the usual signs. I address theoretical controversies. A concluding section places our current regime in a broader historical context, and opines on how optimal fiscal and monetary policy will evolve in the new regime.

The New-Keynesian Liquidity Trap

In standard solutions, the new-Keynesian model produces a deep recession with deflation in a liquidity trap. The model also makes unusual policy predictions: Useless government spending, technical regress, and capital destruction have large multipliers. These predictions become larger as prices become less sticky. I show that both data and policy predictions are strongly affected by equilibrium selection. For the same interest-rate path, different choices of equilibria – either by the researcher's direct selection or the researcher's specification of expected Federal Reserve policy – can overturn all these results. A set of “local-to-frictionless” equilibria predicts mild inflation, no output reduction and negative multipliers during the liquidity trap, and its predictions approach the frictionless model smoothly, all for the same interest rate path.

Sets of Models and Prices of Uncertainty				
Lars Peter Hansen (co-authored by Tom Sargent)				
Abstract				
A decision maker constructs a convex set of nonnegative martingales to use as likelihood ratios that represent parametric alternatives to a baseline model and also nonparametric models statistically close to both the baseline model and the parametric alternatives. Max-min expected utility over that set gives rise to equilibrium prices of model uncertainty expressed as worst-case distortions to drifts in a representative investor's baseline model. We offer quantitative illustrations for baseline models of consumption dynamics that display long-run risk. We describe a set of parametric alternatives that generates countercyclical prices of uncertainty.

<p>Monetary Policy Drivers of Bond and Equity Risks</p> <p>John Campbell (co-authored by Carolin Pflueger and Luis M. Viceira)</p> <p>Abstract</p> <p>The exposure of US Treasury bonds to the stock market has moved considerably over time. While it was slightly positive on average in the period 1960-2011, it was unusually high in the 1980s and negative in the 2000s, a period during which Treasury bonds enabled investors to hedge macroeconomic risks. This paper explores the effects of monetary policy rules, monetary policy uncertainty, and macroeconomic shocks on nominal bond risks, using a New Keynesian model with habit formation and discrete regime shifts in 1977 and 2000. The increase in bond risks after 1977 is attributed primarily to a shift in monetary policy towards a more anti-inflationary stance, while the more recent decrease in bond risks after 2000 is attributed to a renewed focus on output stabilization combined with decreased volatility of supply shocks and increased volatility of the Fed's long-run inflation target. Endogenous responses of bond risk premia amplify these effects of monetary policy on bond risks.</p> <p>Kind regards, H. Dewachter (NBB-KU Leuven), H. Degryse (KU Leuven), M. Deloof (UA), L. Iania (UCL), K. Inghelbrecht (UGent), K. Oosterlinck (ULB), G. Hubner(ULg), F. Venmans (UMons), J.Y. Gnabo (UNamur), A. Claes (USLB) and K. Boudt (VUB)</p>

<p>The SoFiE Financial Econometrics Summer School is an annual week-long research-based course for Ph.D. students and new faculty in financial econometrics. For the first two years it was held at Oxford University's Oxford-Man Institute and in 2014 it moved to Harvard University. In 2015, a Spring School was also organized in Brussels. In 2016, Brussels will now host the Summer School instead.</p> <p>The editorial board for these annual series is made up of Professors Luc Bauwens (Catholic University of Louvain), Francis X. Diebold (University of Pennsylvania, past President of SoFiE), Eric Ghysels (University of North Carolina, Chapel Hill, Secretary and Founding Co-President of SoFiE and Editor of JFEC), Eric Renault (Brown University and SoFiE President), and Neil Shephard (Harvard University).</p> <p>SoFiE Financial Econometrics Summer School 2016</p> <p>Location: Brussels, National Bank of Belgium, Room A, Rue Montagne aux Herbes Potagères/Warmoesberg 61, 1000 Brussels</p> <p>Start date: Monday, July 11, 2016 End date: Friday, July 15, 2016</p> <p>The 2016 confirmed lecturers are: - Professor Christian Gourieroux (University of Toronto & CREST)</p>		

- Professor Jean-Michel Zakoian (University of Lille & CREST)

This year's topic:

"Noncausal Autoregressive process and the Modelling of Speculative Bubbles"

A recent statistical and econometric literature highlights the importance of mixed causal/noncausal ARMA processes for the modeling of macroeconomic and financial time series. Indeed the nonlinear causal dynamic of such processes can capture unit roots, asymmetric cycles, and bubbles features. The objective of the lectures is to present the notions and concepts of the literature on noncausal processes and to explain how they can be used for the modeling and analysis of speculative bubbles. The focus will be both on the modelling and statistical aspects.

Outline of Lectures:

- i) Noncausal ARMA Process Review on nonlinear processes, conditions for the existence and uniqueness of an infinite moving average representation when innovations have fat tails, interpretation of trajectories as random linear combinations of deterministic paths and the creation of bubbles.
- ii) Noncausal AR(1) Process with Stable Errors Properties of errors with stable distributions, stationary distribution of the noncausal AR(1) process, analysis of its conditional moments, aggregation of noncausal processes.
- iii) State Space Representation of Noncausal Processes The causal and noncausal "innovations" of a mixed one-dimensional process, the state space representation, application to maximum likelihood estimation, prediction and filtering, extension to mixed VAR(1) process. Application to the exchange rate bitcoin/US\$, prediction of future bubbles and of bubble crash.
- iv) Test Procedures Standard tests for unit root and random walk hypotheses, behavior of these testing procedures for a noncausal Cauchy process, stationary versus nonstationary martingales, robust tests of the martingale hypothesis.
- v) Modelling Speculative Bubbles The modeling of speculative bubbles in the economic literature. The role of martingales in linear rational expectation models, the multiplicity of solutions in a RE model, how to construct the impulse response functions.

9:00 – 10:45: Sessions A (4 in total)		
10:45 – 11:15: Break		
11:15 – 12:30: Keynote speech by John Campbell: Restoring Rational Choice: The Challenge of Consumer Financial Regulation		
12:30 – 13:30: Lunch		
13:30 – 15:15: Sessions B (4 in total)		
15:15 – 15:45: Break		
15:45 – 17:30: Sessions C (4 in total)		
17:30: End of the Financial Forum		
Location		
Sessions will take place in Stormstraat 2 room 4405 (Sessions A4, B4 and C4) and Rue Montagne aux Herbes Potagères 61 (all the other sessions).		
The keynote speech will take place at the Auditorium of the National Bank of Belgium, Rue Montagne aux Herbes Potagères 61		
Instructions		
All presentations are structured as follows 20 Minutes presentation, 10 Minutes discussion and 5 minutes questions.		
Sessions A (9:00 – 10:45)		
Session A1: Corporate finance Location: Room A1, Rue Montagne aux Herbes Potagères 61 Chair: Marc Deloof (UA) How does Acquirer Board Structure Impact M&A Returns? Evidence from European Acquirers Presenter: Corneel Defrancq Discussant: Marc Deloof Lobbying in U.S. Financial Regulation		
Presenter: Joao Cunha Discussant: Klaas Mulier Does Liquidity Substitute for Unemployment Insurance? Evidence from the Introduction of Home Equity Loans in Denmark Presenter: László Sándor Discussant: TBD		
Session A2: Financial Economics Location: Room A2, Rue Montagne aux Herbes Potagères 61 Chair: Catherine Fuss (NBB) Endogenous Interest Rate Wedge and Capital Flows in an Integrated World		
Presenter: Hung Ly-Dai Discussant: Robert Kollmann Uncertainty, the Exchange Rate and		

International Capital Flows Presenter: Robert Kollmann Discussant: Rafael Wouters Banks' Foreign Currency Funding and Exporters' Performance Presenter: Jean-Stéphane Mésonnier Discussant: Catherine Fuss

Session A3: Asset Pricing Location: Room B, Rue Montagne aux Herbes Potagères 61 Chair: Anouk Claes (USLB) Currency risk premia and the monetary policy stance Presenter: Ferdinand Dreher Discussant: Hairui Zhang Price Anchoring in the US Stock Market Presenter: Hannes Stieperaere Discussant: James Thewissen Currency and Debt Dynamics in the Era of Quantitative Easing Presenter: Kelbesa Megersa Discussant: Dries Heyman

Session A4: Banking Location: Stormstraat 2 room 4405 Chair: Hans Degryse (KUL) Shifting Currency Mismatch Losses: Effects on Corporate Debt Overhang and Leveraged Banks Presenter: Egle Jakucionyte Discussant: Elisabeth Maes The Leverage Ratio, Risk-Taking and Bank Stability Presenter: Jonathan Smith Discussant: Mike Mariathasan Domestic banks as lightning rods? Home bias during Eurozone crisis Presenter: Orkun Saka Discussant: Sanja Jakovljevic

Sessions B (13:30 – 15:15)

Session B1: Financial Econometrics Location: Room A1, Rue Montagne aux Herbes Potagères 61 Chair: Kris Boudt Hedge fund styles and macroeconomic uncertainty Presenter: Federico Platania Discussant: Hassouni Afrae Assessing the Contribution of Hedge Funds to Portfolio Management Beyond the Mean-Variance Framework Presenter: Hassouni Afrae Discussant: Federico Platania Noisy Information and Expectation Formation in the Foreign Exchange Market Presenter: Satrajit Mukherjee Discussant: Gert Elaut Session B2: Financial Econometrics Location: Room A2, Rue Montagne aux Herbes Potagères 61 Chair: David Veredas (Vlerick) Dynamic Adaptive Mixture Models Presenter: Leopoldo Catania Discussant: Dries Cornilly Cumulative Prospect Theory and the Variance Premium Financial Presenter: Baele Lieven Discussant: David Veredas

Session B3: Market Microstructure Location: Room B, Rue Montagne aux Herbes Potagères 61 Chair: Mikael Petitjean (UCL) Predatory Trading in a Rational Market Presenter: Vincent Fardeau Discussant: Oscar Bernal Intraday Momentum in FX Markets: Disentangling Informed Trading from Liquidity Provision Presenter: Kevin Lampaert Discussant: Hugues Pirotte US corporate bond market microstructure: New insights from repeat-sales indices Presenter: Stephanie Heck Discussant: Mikael Petitjean

Session B4: Banking Location: Stormstraat 2 room 4405 Chair: Jan Annaert (UA) Some borrowers are more equal than others: Bank funding shocks and credit reallocation Presenter: Klaas Mulier Discussant: Mustafa Disli The impact of bank shocks on firm-level outcomes and bank risk-taking Presenter: Sanja Jakovljevic Discussant: Tijmen Daniels Fire Sales Bank Recapitalizations Presenter: Mike Mariathasan Discussant: Frank Venmans

Sessions C (15:45 – 17:30)

Session C1: Asset Pricing

Location: Room A1, Rue Montagne aux Herbes Potagères 61 Chair: Bruno De Backer (NBB) Fed Liftoff and Subprime Loan Interest Rates: Evidence from the Peer-to-Peer Lending Market Presenter: Bertsch Christoph Discussant: Bruno De Backer Malfunctioning and Fragmentation of Sovereign Bond Markets Presenter: Roberto de Santis Discussant: Arnaud Monseur Switching Risk Off: FX Correlations and Risk Premia Presenter: Cen Jason Discussant: Lieven Baele

Session C2: Market Microstructure Location: Room A2, Rue Montagne aux Herbes Potagères 61
Chair: Catherine D'Hondt (UCL) High-Frequency Trading and Fundamental Price Efficiency Presenter:
Jasmin Gider Discussant: Gunther Wuyts The Activity of HFTs in the Order Book: Anatomy and
Information Content Presenter: Matthias Saerens Discussant: Floris Laly Limit Order Book Information
and Return: Predictability in a Fragmented Market Presenter: Gunther Wuyts Discussant: Kris Boudt

Session C3: Network Location: Room B, Rue Montagne aux Herbes Potagères 61 Chair: Jean-Yves
Gnabo (UNamur) Measuring interconnectedness between financial institutions with Bayesian time-
varying vector autoregressions Presenter: Marco Geraci Discussant: TBD Interconnectedness as a
Source of Uncertainty in Systemic Risk Presenter: Tarik Roukny Discussant: Nicholas Scholtens Shock
diffusion in financial networks Presenter: Dan H. Tran Discussant: TBD

Session C4: Banking Location: Stormstraat 2 room 4405 Chair: Koen Inghelbrecht (UGhent) Note on
funding risk and the increase in collateralized lending Presenter: Tijmens Daniels Discussant: Hugues
Pirotte Is Bank Capital Regulation Costly for Firms? – Evidence from Syndicated Loans Presenter:
Abhik Mukherjee Discussant: Georges Hübner The Residential Collateral Channel Presenter: Gabor
Pinter Discussant: Koen Inghelbrecht

3.4 ACTIVITES ORGANISEES PAR IACCHOS

3.4.1 IACCHOS/CIRTES - Conférence - Méthodes d'évaluation participative de projets d'économie sociale et solidaire au Sud

DSM – ACTIVITE DOCTORALE 2016		
Année civile :	2016	
Ecole doctorale :	Doctoral School of Management	
Intitulé de l'activité :	Méthodes d'évaluation participative de projets d'économie sociale et solidaire au Sud	
Institut de recherche :	IACCHOS	
Centre de recherche :	CIRTES	
Organisateur(s) /affiliation :	Pre Andreia LEMAÎTRE, UCL Maïté le POLAIN, doctorante, UCL Maïté KERVYN, doctorantes, UCL	
Intervenant(s) :	Abraham FRANSSEN (USL) Tatiana GOETGHEBUER (ADE) Philippe DE LEENER (UCL & Inter-Mondes) Frank SIGNORET (COTA) Emmanuelle PICCOLI (UCL) Marc TOTTÉ (Inter-Mondes) Chantal VANDOORNE (ULg) Karen BAHR (Dris Consult) Dirk VAN ESBROECK (South Research) Andreia LEMAÎTRE (UCL) Guy VAN VLAENDEREN (Consultant freelance) Pierre GREGA (Dris Consult)	
Nature de la formation:	Conférence participative	
Volume horaire :	1 jour	
Date(s) et lieu(x) :	2016 24 mai	UCL LLN
Budget de l'activité :	0	
Nombre de participants :	Doctorants CIRTES	
Liste des participants :		
NOM	Prénom	Affiliation
Liste non disponible		

<p>Descriptif ou Programme :</p> <p>"Méthodes d'évaluation participative de projets d'économie sociale et solidaire au Sud"</p> <p>Conf.participative</p> <p>Conférence organisée par</p> <p>La Chaire d'Economie Sociale et Solidaire au Sud (CESSS),</p> <p>Le Centre Interdisciplinaire de Recherche Travail, Etat et Société (CIRTES)</p> <p>et L'ONG Louvain Coopération, en collaboration avec le Centre d'Etudes du Développement (DVLP).</p> <p>Cette conférence s'adresse aux acteurs du développement et aux chercheurs universitaires intéressés par les méthodes d'évaluation participative de projets de développement, et en particulier de projets d'économie sociale et solidaire.</p> <p>Au cours de la journée, des professeurs du monde académique et des professionnels de terrain aborderont les enjeux de l'évaluation participative, présenteront diverses méthodes existantes, en détaillant leurs forces et leurs limites, avant de laisser la place au débat avec les participants.</p> <p>Compte rendu de la journée</p> <p>Personnes de contact :</p> <p>Maïté le Polain (CIRTES UCL), Maïté Kervyn (CIRTES UCL), Andreia Lemaître (CIRTES UCL)</p>

3.4.2 IACCHOS/CIRTES - Séminaires - Midis du CIRTES

DSM – ACTIVITE DOCTORALE 2016				
Année civile :	2016			
Ecole doctorale :	Doctoral School of Management			
Intitulé de l'activité :	Midis du CIRTES			
Institut de recherche :	IACCHOS			
Centre de recherche :	CIRTES			
Organisateur(s) /affiliation :	Pr ^e Donatienne DESMETTE, UCL			
Intervenant(s) :	Voir programme			
Nature de la formation:	Séminaires			
Volume horaire :	14 x 1h30 = 21h			
Date(s) et lieu(x) :	2016 14 dates (voir programme)	UCL LLN		
Budget de l'activité :	0			
Nombre de participants :	Doctorants CIRTES			
Liste des participants :				
NOM	Prénom	Affiliation		
Liste non disponible				
Descriptif ou Programme :				
Midis du Cirtes				
Responsables : Dédé Aliango, Maria José Ruiz et Donatienne Desmette.				
Les « midis du CIRTES » ont pour objectif d'avoir des séminaires réguliers de travail avec tous les membres de l'équipe CIRTES. L'idée est que tout doctorant ou académique puisse avoir la possibilité de présenter une fois leurs recherches sur l'année. Ces « midis du CIRTES » constituent un espace de travail commun plutôt qu'un séminaire formel et permettront ainsi de créer un espace intellectuel de collaboration. Concrètement, l'orateur présente durant 30 minutes et puis une petite heure de discussion interdisciplinaire sera prévue.				
11/01/2016 Maïté Le Polain La promotion de taux d'intérêt dans les groupes d'épargne au Sud Kivu : par qui et pourquoi ?				
22/02/2016 Dédé Aliango Le surplus de productivité et son partage dans les coopératives d'épargne et de crédit kinois : études des cas (Abstract)

Descriptif ou Programme :	<p>Séminaires de recherche du CriDIS</p> <p>« Inquiétudes démocratiques»</p> <p>Calendrier également disponible sur www.uclouvain.be/cridis</p> <p>Ce séminaire a pour objectif de mettre en discussion l'épistémologie des sciences sociales critiques de la démocratie, à laquelle se consacrent les travaux des membres du Centre. Ce cycle de deux ans est structuré en trois volets. Chacun de ces volets met en valeur une spécificité de la problématisation de la démocratie pratiquée au CriDIS. Un premier volet, « Les formes de la démocratie », nous montre les différents angles sous lesquels la démocratie y est abordée : depuis ses formes les plus institutionnelles, jusqu'à ses mouvements les plus spontanés, en passant par des dispositifs hybrides de gouvernance et de participation. Le deuxième volet, « Où la démocratie a-t-elle lieu? », met en avant la multiplicité des espaces investis par les recherches du CriDIS. Travail, ville, culture, médias sont quelques-uns de ces lieux où se joue la démocratie, où celle-ci est concrètement mise à l'épreuve et souvent mise en crise. Le troisième volet du séminaire, « La démocratie inquiétée », introduit à des travaux qui, par les approches mobilisées (études postcoloniales, déconstruction, sociologie clinique) ou les situations étudiées (folie, fondamentalisme, violence), sont de nature à inquiéter la démocratie, jusque dans sa possibilité.</p> <p>***</p> <p>1. La formule proposée</p> <p>La présente proposition de séminaire entend prolonger les discussions entamées au cours des dernières</p>							

Journées au vert du CriDIS. Comme discuté lors de ces journées, ce séminaire aura les particularités suivantes :

- Un programme étalé sur deux années académiques (2014-2015 et 2015-2016)
- Un séminaire centré sur les interventions des membres du CriDIS
- Un séminaire orienté vers la production d'une publication collective dont l'enjeu est de formaliser notre conception des sciences sociales et de leurs apports critiques aux théories de la démocratie, tout en la mettant en discussion avec des intervenants extérieurs.

2. Méthode

- Le séminaire est structuré en trois moments. Ces trois moments correspondent potentiellement aux trois parties d'un livre :
 - Les formes de la démocratie : institutions, participations, mouvements
 - Les lieux de la démocratie : travail, ville, culture, médias
 - La démocratie inquiétée : approches et situations critiques
- Chaque séance tourne autour des travaux d'un membre du Centre.
- Pour chaque séance, l'intervenant CriDIS proposera : soit : un(e) intervenant(e) extérieur(e) dont les travaux permettent d'éclairer, d'approfondir ou de critiquer sa propre contribution ; soit un(e) doctorant(e) du Centre, dont les travaux s'articulent à la problématique traitée, permettant ainsi au chercheur de bénéficier d'une dynamique collective de recherche.

3. Temporalité du séminaire

- Le séminaire s'étend sur deux années académiques et quatre quadrimestres.
- Les séances du séminaire ont lieu, sauf information contraire, les derniers jeudis du mois, d'octobre à avril, de 14.00 à 17.00. L'entrée est libre mais l'inscription recommandée.
- La présentation du principal orateur est de 45 minutes ; celle de l'intervenant(e) extérieur(e) ou du/de la doctorant(e) de 30 mn à 45 mn.

La démocratie inquiétée : approches et situations critiques

Séance 11

Jeudi 28 janvier 2016

Intervenants CriDIS

Thierry Amougou

Titre : « Démocratie et démocraties en Afrique subsaharienne : les coordonnées polaires d'une problématique en chantier »

Mathieu Berger et Jean De Munck

Titre : « Une perspective pragmaticiste en sociologie. Le cas de la participation»

Séance 12

Jeudi 25 février 2016

Intervenants :

Marine Kneubühler (Université de Lausanne)

« De l'expérience phénoménologique à l'expérience démocratique: ce que le rap romand peut nous apprendre sur les modes d'existence des collectivités humaines »

Discutant : Lionel Francou (CriDIS-UCL)

Grégoire Lits (CriDIS-UCL)

« L'usage des catégories au cœur des inquiétudes démocratiques : mesurer et expliquer l'effet de la catégorie "terroriste" »

Texte des co-auteurs : S. Baele, o. Sterck,g. Lits et t. Slingeneyer

Président de séance: Philippe De Leener (CriDIS-UCL)

Séance 13

Jeudi 24 mars 2016

Intervenant CriDIS : Philippe De Leneer

Titre : « Démocratie et déconstruction »

Discutant : Thomas Périlleux (CriDIS-UCL)

Echange interne CriDIS sur la convivialité et l'aménagement de la vie en commun
dans le Centre en prenant appui sur le Manifeste convivialiste.

Présidente : Isabelle Ferreras (CriDIS-UCL)

Séance 14

Jeudi 28 avril 2016

Intervenants CriDIS : Andres-Felipe, Astrid Florez

Titre : « Démocratie et violence »

4. ANNEXES : THESES DEFENDUES

6 thèses de doctorat ont été défendues avec succès en 2016.

4.1 Stéphanie TOUSSAINT

THESE – 31 août 2016	
Nom :	TOUSSAINT
Prénom :	Stéphanie
Titre de la thèse :	Vers une compréhension de l'habiter dans la consommation : l'expérience des lieux de service polyfonctionnels
Promoteurs :	Pr P. AGRELL, UCL P ^{re} Nil OZÇAGLAR-TOULOUSE, Université Lille 2
Membres du jury :	P ^{re} Véronique COVA, IAE, Aix-Marseille Pr Alain DECROP, UNamur P ^{re} Delphine DION, Professeur associé, ESSEC Business school Dr Mike FRIEDMAN, KBC Bank Pr Laurent TASKIN, UCL
Président du jury :	P ^{re} Isabelle COLLIN-LACHAUD, Université de Lille 2
Institution universitaire :	Université catholique de Louvain / Universite de Lille2
Sous domaine :	Sciences économiques et de Gestion
Source de financement :	Assistante
Lien :	JPG

4.2 Emilie MALCOURANT

THESE - 28 juin 2016	
Nom :	MALCOURANT
Prénom :	Emilie
Titre de la thèse :	Les processus de prise de décision au sein d'une météo-organisation internationale : le cas de l'Agence mondiale antidopage
Promoteurs :	Pr Alain VAS, UCL Pr Thierry ZINTZ, UCL
Membres du jury :	Pr Benoît DEMIL, IAE Lille Pr Philippe MONIN, EM Lyon Dr Mathieu WINAND, School of Sport de la Stirling Univ., Ecosse
Président du jury :	Pr Per AGRELL, UCL
Institution universitaire :	Université Catholique de Louvain
Sous domaine :	Sciences économiques et de Gestion
Source de financement :	Assistante
Lien :	PDF

4.3 Nathalie GUilmot

THESE – 11 mars 2016	
Nom :	GUilmot
Prénom :	Nathalie
Titre de la thèse :	La nature paradoxale du travail des managers intermédiaires en contexte de changement permanent.
Promoteur :	Pr Alain VAS
Membres du jury :	P ^{re} Florence ALLARD-POESI, Univ. Paris-Est Créteil Val de Marne Pr Régis COEURDEROY, UCL Pr François PICHAULT, Univ. de Liège P ^{re} Linda ROULEAU, HEC Montréal, Canada
Président du jury :	Pr Per AGRELL, UCL
Institution universitaire :	Université Catholique de Louvain
Sous domaine :	Sciences économiques et de Gestion
Source de financement :	Assistante
Lien :	PDF

4.4 Marine FALIZE

THESE – 22 janvier 2016	
Nom :	FALIZE
Prénom :	Marine
Titre de la thèse :	La nature paradoxale du travail des managers intermédiaires en contexte de changement permanent.
Promoteur :	Pr Régis COEURDEROY, UCL
Membres du jury :	Pr Assâad EL AKREMI, Univ. de Toulouse 1 Pr Frank JANSSEN, UCL P ^r e Patricia McDougall, Bloomington, Indiana, US Pr Josée ST-PIERRE, Univ. du Québec à Trois-Rivières
Président du jury :	Pr Per AGRELL, UCL
Institution universitaire :	Université Catholique de Louvain
Sous domaine :	Sciences économiques et de Gestion
Source de financement :	Assistante
Lien :	PDF

4.5 Marie VAN den BROECK

THESE – 26 janvier 2016	
Nom :	VAN den BROECK
Prénom :	Marie
Titre de la thèse :	De la mondialisation à la transformation des pratiques d'emploi locales : Analyse des facteurs régulant les pratiques de salaire variable dans les filiales belges d'entreprises multinationales.
Promoteur :	P ^r e Evelyne LEONARD, UCL
Membres du jury :	P ^r Gregor MURRAY, Univ. De Montréal P ^r e Valeria PULIGNANO, KUL P ^r Laurent TASKIN, UCL P ^r e Patricia VENDRAMIN, FTU Namur et UCL
Président du jury :	P ^r Per AGRELL, UCL
Institution universitaire :	Université catholique de Louvain
Sous domaine :	Sciences économiques et de Gestion
Source de financement :	Assistante
Lien :	PDF

4.6 Vivien DJIAMBOU

THESE – juin 2016	
Nom :	DJIAMBOU
Prénom :	Vivien
Titre de la thèse :	Testing the impact of fiscal, financial, and political variables on the European bond spreads
Promoteur :	P ^{re} Natalie GILSON, UCL-Mons
Membres du jury :	Pr Mikael PETITJEAN, UCL-Mons Pr Etienne FARVAQUE, Université de Lille 1 Pr Marcel GERARD, UCL-Mons Pr Bas van AARLE, KUL
Président du jury :	P ^{re} Catherine D'HONDT, UCL-Mons
Institution universitaire :	Université Catholique de Louvain
Sous domaine :	Sciences économiques et de Gestion
Source de financement :	Assistant
Lien :	PDF
